

# ACEC Fall Conference: IronOrbit's GPU Workspaces Spotlited After Acclaimed Gartner® Magic Quadrant™ Recognition

**Friday, October 13th, 2023 - Anaheim Hills, CA** - IronOrbit, a leader in GPU-Accelerated cloud desktops, is excited to announce participation in the annual American Council of Engineering Companies (ACEC) Fall Conference. The event invites a diverse group of leaders from the AEC industry to discuss the latest trends, emerging technologies, and best practices. IronOrbit will highlight their high-performing INFINITY Workspaces, specifically recent inclusion in Gartner's Magic Quadrant for Desktop as a Service (DaaS) in Austin, Texas, from October 15th to 18th.

As a key exhibitor and affiliate member, IronOrbit will showcase its innovative solutions as a forerunner to new approaches to IT and cloud computing. Visitors can attend their on-site demonstrations, Q&A sessions, and one-on-one discussions. IronOrbit will share valuable insights on gaining a competitive edge through their secure and scalable Managed DaaS offerings.

IronOrbit reaffirms its commitment to serving the AEC industry with efficient solutions fortified with a multi-layered security posture. They provide custom and fully managed GPU-accelerated cloud desktops for the most demanding graphic-intensive workloads. Their turnkey solution resonates with AEC firms looking to streamline operations and focus on core competencies, all while ensuring the highest standards of security and compliance.

*"We are excited about participating in another ACEC Fall Conference. It's the perfect platform for us to connect with industry experts and potential clients,"* said Kamron Naderkhani, Marketing Manager at IronOrbit. *"We look forward to demonstrating how our cutting-edge IT solutions can be the catalyst that propels engineering companies to the next level of innovation and efficiency."*

## What to Expect from IronOrbit at the ACEC Fall Conference:

- **Live Demonstrations:** Get a real-time look at how IronOrbit's solutions can enhance your organization's performance.
- **Expert Consultation:** Our experienced professionals will be available to answer any queries and provide personalized consultations.

## About ACEC

The American Council of Engineering Companies (ACEC) was founded in 1909, as the engineering industry's business association. ACEC is a national federation with regional organizations representing over 5,500 engineering firms and 600,000+ engineers, surveyors, and architects in 52 states, as well as other specialists nationwide. America's infrastructure and built environment are driven by the dedicated member firms of ACEC.

## About IronOrbit

IronOrbit is a Gartner recognized CSP, specializing in managed IT and GPU-accelerated cloud desktop solutions. They were recently included as a Niche Player in Gartner's first-ever Magic Quadrant for Desktop as a Service (DaaS). IronOrbit offers a wide range of services that include cloud computing, managed services, cybersecurity, backups and disaster recovery, and business continuity services tailored for businesses across various sectors. For 25 years, they have been committed to driving innovation and efficiency through a seamless IT experience that enables organizations to achieve digital transformation that meets their business objectives.
